

## EU ELV Compliance Declaration

The parts which Allegro MicroSystems, Inc. sells comply with the requirements of EU Directive 2000/53/EC (ELV) and subsequent Commission Directive 2017/2096/EC on End of Life Vehicles. This covers the restriction of the use of certain hazardous substances in End of Life Vehicles (lead, cadmium, chromium VI, and mercury). Most components supplied by Allegro MicroSystems, Inc. do not require the use of EU ELV exemptions. When the use of an EU ELV exemption is required, the following may apply:

Exemption	Description
8(e)	Lead in high melting temperature type solders (i.e. lead-based alloys containing 85 % by weight or more lead)
8(g)	Lead in solders to complete a viable electrical connection between semiconductor die and carrier within integrated circuit flip chip packages
10(a)	Electrical and electronic components which contain lead in a glass or ceramic, in a glass or ceramic matrix compound, in a glass-ceramic material, or in a glass-ceramic matrix compound. This exemption does not cover the use of lead in: <ul style="list-style-type: none"> <li>— glass in bulbs and glaze of spark plugs,</li> <li>— dielectric ceramic materials of components listed under 10(b), 10(c) and 10(d)</li> </ul>

Based on the data provided by our suppliers, Allegro MicroSystems, Inc. complies with all applicable local, state, federal, and international environmental regulations. Applicable hazardous substances are not present in excess of specified threshold limits in the parts that Allegro MicroSystems, Inc. sells unless an exemption is applied. Should new information be provided from our suppliers which changes the status of our parts, notification will be provided promptly.

Allegro MicroSystems, Inc. assures customers that everything reasonably possible is being performed to maintain compliance with all environmental standards. However, Allegro MicroSystems, Inc. does not produce any of the materials contained in our product, notwithstanding anything to the contrary contained in any document, Allegro MicroSystems, Inc. shall not be liable, under any theory of law, and shall not be responsible to defend or indemnify any party should any material be out of compliance. Controls are in place to help assure that Allegro MicroSystems, Inc. remains compliant. We will continue to communicate with our suppliers and maintain compliance records for all our products as part of our compliance program.
